

TMP Weekly Update January 8

A New Year, A New Airport – January 2, 2025

As 2025 has arrived, the new Pittsburgh International Airport nears completion with significant progress made in 2024. Crews have focused on finishing the new terminal, customer service building, and parking garage. Key milestones include the installation of escalators, the testing of the advanced baggage system, and the addition of design elements like constellation lights and terrazzo floors. In April, the Multi-Modal Complex (MMC) reached a key milestone with its topping-out ceremony. The Customer Service Building, designed to connect passengers from the MMC to the terminal, also saw major progress, with walls, glass and roofing added this year. At the same time, the airside terminal received a major facelift. New bathrooms and passenger hold rooms were completed and opened to the public, offering travelers a glimpse of the enhanced facilities to come.

(VIDEO) A Major Milestone on Our Roadways

Seven new bridges and miles of new roadway connect the new modern campus. Watch the video [here](#) to see how our new roadway system was built and how it will make getting to and from our new airport easy and intuitive.

Airbridge Makes International Arrivals Easier

Workers lifted a permanent airbridge into place on Concourse C. This is significant as it allows for airline tugs to access the new international bag claim device safer and more effectively leading to a smoother passenger experience when traveling on one of our international flights.

Construction Progress

The new Pittsburgh International Airport is being built to reflect the values of a modern Pittsburgh, providing a seamless, smarter and more welcoming, passenger-first experience... from curb to gate. Watch as we continue construction on our new 811,000-square-foot terminal and multi-modal complex that includes a five-story parking garage and rental car customer service building, all being built to modernize the airport with more efficient, tech-forward and sustainable facilities.
